How we built this report

- Creatives are utm_content values on paid leads, meaning a paid medium or an ad click ID (669 of 702). Case and punctuation are ignored, so Hero_CTA and hero-cta count once.
- Weeks are full 7-day windows ending Sep 30. Fatiguing means weekly leads fell three weeks in a row, or the latest week is more than 40% below the creative's first week with leads (4 or more).
- Spend: $27.9K from September 2026. Matched to creatives where the ad name equals utm_content.
- Cost per lead in the summary divides all ad spend by all 702 paid leads.
- Changes compare September 2026 with August.

Next: refresh *Static - $99 Whitening*. Its weekly leads are down from 9 to 1.
